

SPRING NEWSLETTER 2018

REGIONAL DIRECTOR FOR SCOTLAND APPOINTED

Emtec Building Services Ltd are delighted to announce the appointment of Iain Hetherington as Regional Director for Scotland.

Managing Director, Stewart Barclay, welcomes Iain to the business as part of the Senior Management Team.

Iain has a wealth of experience within the M&E contracting sector. He joins us from his previous position as Head of SSE's, Major Projects Contracting business for the UK and Ireland.

Iain's responsibilities include the day to day management of the Scotland business including head office support services. Iain will focus on the continued strategic growth of our business, leadership and development of our people across the region, providing our customers with the surety of delivery and service whilst promoting our ethos of "Your Partner of Choice".

STA SCOTLAND SECURES BETTER GRID ACCESS FOR SOLAR ON THE MAJORITY OF COMMERCIAL BUSINESS & HOUSING DEVELOPMENTS

Solar installations up to 200kW in size will find it easier to connect to the grid in Scotland as of the 1st of April 2018. The breakthrough comes thanks to SPEN agreeing to relax restrictions on solar after STA Scotland lobbied them to analyse several case study connections which, after further calculations showed modest network impact in practice.

Emtec Energy's Managing Director Chris Clark who is the Chair of STA Scotland commented, "This is a breakthrough for solar in much of Scotland and it goes a long way towards removing one of several barriers to Scotland realising its solar potential. As a result of SPEN taking a sensible approach to rooftop schemes, businesses and housing developers in Scotland will find it easier & cheaper to go solar. Developers, consultants and architects can now look again at solar as a solution to making their buildings more efficient."

EBS BIRMINGHAM PARTNER WITH UNITED LIVING

Emtec's Birmingham office have secured the full M&E package on the new Silbury Boulevard residential scheme in Milton Keynes with contractor United Living. The scheme is Design and Build and will start on site in August 18. The Birmingham office have partnered with local design practice Cundalls to ensure early engagement and design development.

The development will comprise of one and two bedroom apartments across six floors with two retail units on the ground floor with an overall construction value of circa £25m.

EMTEC FACILITY SERVICES SECURE NATIONWIDE CONTRACT

Emtec Facility Services Ltd are delighted to be working with Nationwide Building Society providing a range of planned and reactive mechanical and electrical maintenance services.

The agreement covers Nationwide's branch and office facilities over a large geographical area, with a broad range of maintenance services being delivered, and supporting reactive response times from thirty minutes.

EMTEC FIRE AWARDED NSI GOLD

Emtec Fire Systems have successfully been accredited as an approved NSI Gold Company for the design, installation and commissioning of Fire Alarms and Security Systems.

Emtec Fire are one of the few fire and security companies in Britain who hold the required accreditations to deliver sprinkler, fire alarms, security, CCTV, door access systems in house.

SIGNAGE AT GEORGE HOUSE

Emtec Branding have completed the manufacture and installation of various signage elements at George House, in Glasgow's George Square.

Working for both Redpath Construction and Trident BC, the works included; anodised fascia signage, built-up aluminium logo's and lettering, and a feature beige-banded, sandblasted, Jura Limestone "G" logo.

DRB UK SECURE PRESTIGIOUS CONTRACTS

DRB have installed the new Esso Synergy brand across 70 UK sites for their client Euro Garages. In conjunction with this project, they have commenced the installation for the rebrand of the newly introduced 2Di Esso canopy across 80 sites for their client Motor Fuel Group.

Other recent projects include a full shop fit out, canopy and forecourt refurb for BP, as well as the supply and installation of a bespoke mains distribution panel at the Annandale Services and a similar job at BP Peebles. DRB have also been awarded the contract of the new BP site at Manchester airport which will include a new petrol filling station, M&S Simply food store and Costa coffee drive through.

The award of these prestigious and significant contracts is a testament to the professionalism of the team and work carried out by DRB.

STUDENT RESIDENCE HOLLAND HOUSE

Emtec Core & Protect have successfully completed their long term contract with Sharkey Ltd at student residence Holland House, Edinburgh.

The refurbishment project consisted of 4 separate accommodation blocks. The works were carried out in phases by their 'Core' division who carried out all diamond core drilling works through block walls and RFC floor slabs to allow the installation of new mechanical and electrical services throughout. After the installation of all new services, their 'Protect' division stepped in to fire stop all services in line with the building's fire strategy design.
